

Your Baby at 9 Months★

Child's Name _____

Child's Age _____

Today's Date _____

Milestones matter! How your child plays, learns, speaks, acts, and moves offers important clues about his or her development. Check the milestones your child has reached by 9 months. Take this with you and talk with your child's doctor at every well-child visit about the milestones your child has reached and what to expect next.

What Most Babies Do by this Age:

Social/Emotional

- ☐ May be afraid of strangers
- ☐ May be clingy with familiar adults
- ☐ Has favorite toys

Language/Communication

- ☐ Understands "no"
- ☐ Makes a lot of different sounds like "mamamama" and "bababababa"
- ☐ Copies sounds and gestures of others
- ☐ Uses fingers to point at things

Cognitive (learning, thinking, problem-solving)

- ☐ Watches the path of something as it falls
- ☐ Looks for things he sees you hide
- ☐ Plays peek-a-boo
- ☐ Puts things in her mouth
- ☐ Moves things smoothly from one hand to the other
- ☐ Picks up things like cereal o's between thumb and index finger

Movement/Physical Development

- ☐ Stands, holding on
- ☐ Can get into sitting position
- ☐ Sits without support
- ☐ Pulls to stand
- ☐ Crawls

You Know Your Child Best.

Act early if you have concerns about the way your child plays, learns, speaks, acts, or moves, or if your child:

- ☐ Is missing milestones
- ☐ Doesn't bear weight on legs with support
- ☐ Doesn't sit with help
- ☐ Doesn't babble ("mama", "baba", "dada")
- ☐ Doesn't play any games involving back-and-forth play
- ☐ Doesn't respond to own name
- ☐ Doesn't seem to recognize familiar people
- ☐ Doesn't look where you point
- ☐ Doesn't transfer toys from one hand to the other

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay and ask for a developmental screening.

If you or the doctor is still concerned

1. Ask for a referral to a specialist and,
2. Call your state or territory's early intervention program to find out if your child can get services to help. Learn more and find the number at cdc.gov/FindEI.

For more information, go to cdc.gov/Concerned.

DON'T WAIT.
Acting early can make a real difference!

★ It's time for developmental screening!

At 9 months, your child is due for general developmental screening, as recommended for all children by the American Academy of Pediatrics. Ask the doctor about your child's developmental screening.

Help Your Baby Learn and Grow

You can help your baby learn and grow. Talk, read, sing, and play together every day. Below are some activities to enjoy with your 9-month-old baby today.

What You Can Do for Your 9-Month-Old:

- ☐ Pay attention to the way he reacts to new situations and people; try to continue to do things that make your baby happy and comfortable.
- ☐ As she moves around more, stay close so she knows that you are near.
- ☐ Continue with routines; they are especially important now.
- ☐ Play games with “my turn, your turn.”
- ☐ Say what you think your baby is feeling. For example, say, “You are so sad, let’s see if we can make you feel better.”
- ☐ Describe what your baby is looking at; for example, “red, round ball.”
- ☐ Talk about what your baby wants when he points at something.
- ☐ Copy your baby’s sounds and words.
- ☐ Ask for behaviors that you want. For example, instead of saying “don’t stand,” say “time to sit.”
- ☐ Teach cause-and-effect by rolling balls back and forth, pushing toy cars and trucks, and putting blocks in and out of a container.
- ☐ Play peek-a-boo and hide-and-seek.
- ☐ Read and talk to your baby.
- ☐ Provide lots of room for your baby to move and explore in a safe area.
- ☐ Put your baby close to things that she can pull up on safely.

Milestones adapted from CARING FOR YOUR BABY AND YOUNG CHILD: BIRTH TO AGE 5, Fifth Edition, edited by Steven Shelov and Tanya Remer Altmann © 1991, 1993, 1998, 2004, 2009 by the American Academy of Pediatrics and BRIGHT FUTURES: GUIDELINES FOR HEALTH SUPERVISION OF INFANTS, CHILDREN, AND ADOLESCENTS, Third Edition, edited by Joseph Hagan, Jr., Judith S. Shaw, and Paula M. Duncan, 2008, Elk Grove Village, IL: American Academy of Pediatrics.

This milestone checklist is not a substitute for a standardized, validated developmental screening tool.
